

About Us

About us AGUNSA PERU is a subsidiary company of AGUNSA group, leading company in the port and airport services in South America. It has been operating in the Peruvian market since 1995, developing activities related to logistics services rendered to importers, exporters and international trade operators through the installation of one of the most modern customs complexes of the south pacific for the integrated handling of cargo transported by air, sea and land.

AGUNSA PERU has worked with clients from a great variety of industries, creating and executing integral logistic solutions for their local and international businesses, gaining the experience it offers to its clients. AGUNSA PERU is more than a logistic services provider; it is a strategic partnership who shares with its clients the responsibility of building up success.

AGUNSA PERU operations include services to more than 300 ships per year, more than 30,000 containers and around 50,000 tons of general cargo. Our clients are important shipping companies and NVOCC, as well as importers and exporters. A professional team specialized in operations of cargo terminals, container warehouse, and transport and distribution, is constantly searching the best logistic solutions for your company.
